

Unauthorised Parking

Please ensure that your vehicle is strictly parked within a parking space that is assigned to your apartment. If you are unable to do so, your vehicle will need to be parked outside of the building. Under no circumstances is your vehicle to be parked within another occupant's bay.

If your parking space is occupied by an unauthorised parked vehicle, leave a note on its windscreen requesting the vehicle to be removed from your space or report to building manager who may try to follow up and assist as best as possible. However, all parking spaces in this building are on private title. It is ultimately a civil matter between you and the person who illegally parks in your parking space. The Owners Corporation or its building manager have no power to remove the vehicle in a private title parking space.
